

February 3, 2026

Chairman French Hill
House Financial Services Committee
Washington, D.C. 20515

Dear Chairman Hill:

Thank you for your leadership promoting prompt action on TRIA and for supporting passage of H.R. 7128, The TRIA Program Reauthorization Act of 2026, on January 22, 2026.

Reauthorization of TRIA in 2026 is critical to the commercial real estate industry. Your leadership on and support of H.R. 7128 was not only the first step in protecting the interests of building owners and managers but also the companies that support their operations. Together they produce \$134.9 billion in operating outlays across the country supporting nearly a million jobs.

In case you didn't know, in your district, according to BOMA's 2022 Market Study, BOMA Little Rock supports:

- **\$361.4M** in annual expenditures for office building operations
- **\$195.6M** in annual wages generated from those operations
- **5,300** jobs

Our advocacy team can provide you with more information should you require it and are ready to connect you with BOMA locals who are constituents in Arkansas's 2nd Congressional District.

Thank you again for your support and for advocating for swift passage of H.R. 7128 on the House floor.

Sincerely,

Mary Lue Peck
President and COO, BOMA International
