Codes Committee Operating Guidelines

Function:

The Codes Committee acts as a resource to the Association as it addresses legislation, codes, and regulations which might affect the interests of BOMA members.

Goal:

The Committee will aid the Association in seeking the enactment of legislation and/or codes and standards which encourage industry development and efficient, economical office buildings.

Issue Identification:

Issues can be identified by the Committee itself, or they can come to the attention of BOMA staff or the Committee from an outside source. Issues will also be identified by BOMA International's codes consultants.

Meeting Schedule:

Regular meetings will be held on a quarterly basis, subject to the call of the Committee Chair, or in his/her absence, the Vice Chair.

Staffing/Communication:

The Codes Committee will be staffed by the Committee Liaison, who will be responsible for communications between BOMA International and the Committee. Positions or policies adopted as a result of the Committee's recommendation will be communicated to the membership, policy makers, and the general public through BOMA newsletters, the BOMA website, blog, or other means as appropriate.

Policy Implementation:

The Committee may recommend that the Association take a specific position on an issue. Implementation of any policy, or resolution of any issue on behalf of the Association, is the responsibility of the BOMA Board of Directors.
